350 g Sugar

3 piece Natural oranges depending on variety (200ml juice)

Mix the sugar with the preserving sugar.

Wash and clean the strawberries and chop them very finely. Stir everything vigorously with a large spoon and then bring to the boil over a high heat while stirring.

Juice the oranges and add the juice to the strawberries. Simmer for about 2 minutes.

Using a hand blender, coarsely puree about half of the mixture, stir vigorously again, then simmer for 3 minutes.

Pour the jam into the cold-rinsed jars. Store in the refrigerator and consume as soon as possible.
